Bryant Heating and Cooling Systems (hereinafter "Company") warrants this product against failure due to defect in material or workmanship under normal use and maintenance as follows. Except as otherwise stated, the warranty period is five (5) years from the date of installation. If a part fails due to defect within the warranty period, Company will provide only a new or remanufactured part, at Company's sole option, to replace the failed defective part without charge for the part. This limited warranty is subject to the provisions, conditions, limitations and exclusions listed below and on the reverse (if any) of this document.

Parts Limited Warranty on Heat Exchangers

To the original purchaser of Legacy, Preferred, and Evolution series products **only**, and for his/her lifetime, the Company warrants the primary and secondary heat exchangers against failure due to defect in material or workmanship; provided, however, this warranty shall apply only to the original installation of the furnace in a single family dwelling (i.e., where the furnace services only one dwelling unit) used without interruption as the purchaser's principal residence. On all other product series or applications, and to all other owners, the Company warrants the primary and secondary heat exchangers against failure due to defects in material or workmanship for a period of twenty years from the date of original installation. If a heat exchanger fails due to defect during to warranty period, the Company shall, at its sole option, provide a new heat exchanger without charge for the heat exchanger itself or allow a credit in the amount of the then current factory selling price of an equivalent heat exchanger toward the purchase price of a new Bryant furnace [or provide a new furnace without charge if the retail price of a new furnace is less than the factory price of a new or equivalent heat exchanger].

Labor Limited Warranty on Secondary Heat Exchanger Only

If the secondary heat exchanger fails due to a defect in material or workmanship within twenty (20) years from the date of original installation of product, Company will provide a new or remanufactured secondary heat exchanger, without charge for the part itself, plus provide the labor to install the part (the labor exclusion below notwithstanding). Warranty work must be performed by an authorized Bryant dealer. Failure to use an authorized Bryant dealer may result in additional labor charges not covered by this warranty. Alternatively, Company may, at its option, allow a credit in the amount of the then factory selling price for a new equivalent secondary heat exchanger, plus the then-current value of four hours of labor (which shall be determined using the then-current street rate of the dealer as registered with Company or its distributor from whom the new product is purchased) toward the retail purchase price of a new Bryant furnace or provide a new furnace without charge if the retail price of a new furnace is less than the factory price of a new or equivalent secondary heat exchanger plus the then-current value of four hours of labor. This warranty does not include other costs incurred for diagnosing, removing, shipping, servicing or handling of either defective parts, or replacement parts, or new units.
